## II. ANNUAL REPORT NARRATIVE

## I. School Description

### A. Mission and Vision

### Mission

Center City Public Charter Schools empower our students for lifelong success by building strong character, promoting academic excellence, and generating public service throughout Washington, D.C.

### Vision

Driven by character, excellence, and service, Center City Public Charter Schools seeks to:

- Foster a community of lifelong learners;
- Graduate students ready to go to and through college; and
- Prepare our alumni to serve and lead others in the 21<sup>st</sup> century

### **Core Values**

Character: Achieve with heart Excellence: Achieve with greatness Service: Achieve with others in mind

## B. School Program

During the 2015-16 school year, Center City PCS educated 1438 students at our six campuses which are named after the neighborhoods they are located in: Brightwood, Capitol Hill, Congress Heights, Petworth, Shaw, and Trinidad. Each campus served students in PreK through 8th grade, ages four to fifteen. The school year started August 31, 2015 and ended June 17th, 2016 and our students attended school for an extended school day from 8:30 AM to 4:00PM Monday, Tuesday, Thursday and Friday and from 8:30 AM to 2:30 PM on Wednesdays.

### **Academic Program at Center City PCS**

Center City's academic program is designed to prepare students for high school, college and career. We fully subscribe to the Common Core State Standards for English Language Arts and Mathematics, the Next Generation Standards for Science as well as a comprehensive Social Studies program which is designed using using the Common Core ELA standards and the C3 Framework. Additionally, we believe in providing the most comprehensive education possible while maintaining the integrity of a small school program. Our students not only participate in the core academic programs of English Language Arts (ELA), Social Studies, Math and Science, they also engage in Physical Education and Health education. Other enrichment offerings vary from campus-to-campus, but include Visual Art, Music, Dance, Spanish, and Drama as a regular part of a student's schedule. Specific programmatic offerings are as follows:

### English Language Arts (ELA)

Our ELA curriculum is deeply rooted in two simple beliefs: first, that scholars need significant "time in text" and second, that a true love of reading must be at the core of each and every classroom. Driven by these beliefs, we designed a curriculum that prioritizes the major shifts in instruction driven by the adaptation of the Common Core State Standards – scholars will spend a significant amount of time reading the right texts closely and analytically, as well as identifying the most effective evidence from texts to form strong analyses and arguments. In grades K-3, scholars are securing foundational skills and engaging in text-based discussions through the Core Knowledge Language Arts program (CKLA), while scholars in grades 4-8 will meet the demands of the Common Core by engaging with authentic, high-interest

literature that increases in complexity across the year. Foundational skill development in reading extends in 4th and 5th grade as well.

### **Mathematics**

Our Math curriculum prioritizes the major work of each grade level, as designated by the PARCC Model Content Framework, thus allowing significant time for scholars to engage in higher levels of mathematical performance — to persevere in problem solving, reason using various strategies, and to reflect on mistakes, processes and solutions. Each unit is designed around a culminating performance task, which requires scholars to apply critical thinking skills to discern which new content knowledge or strategies are applicable to tackle a challenging mathematical task in an unfamiliar context. With a deep conceptual understanding of the content and daily opportunities to apply the Mathematical Practices, scholars are empowered to justify their reasoning and critique the reasoning of others. The Center City curriculum has been created using Engage NY as a primary resource and My Math as a supplementary resource.

### Science

We designed a Science curriculum that is aligned with the Next Generation Science Standards that embodies the dual nature of science: a body of deep content knowledge and the processes and practices used to add to that body of knowledge. Scholars learn the key components of Earth, Life, and Physical sciences while being challenged to solve real world problems, analyze data in context and share their findings with their peers. These particular areas of focus are sufficiently rich to allow scholars to understand systems and subsystems, the nature of interactions, and how humans interact with the living and nonliving world for positive and negative outcomes, while also building their literacy, mathematical reasoning and problem-solving skills. Scholars learn early about the scientific process and are asked to apply this process of disciplined inquiry and experimentation to a science project of their choosing. All students in Pre-K through 2nd grade will work on whole class projects and students in 3rd through 8th grade will work on group or individual projects. These projects are showcased for parents and visitors at the annual Center City PCS Science Fair.

### Social Studies

Our Social Studies curriculum is built around the Core Knowledge Sequence in grades K-5, which describes the content students should know at each grade level throughout the course of their education. In middle school, the curriculum is designed with the focus on complex primary and secondary sources that require accurate citation of visual and textual evidence. Our curriculum emphasizes the determination of central ideas, summarization, citation, inferencing, and analysis in order to build the critical thinking skills necessary for scholars to develop and defend historically accurate arguments in both written and oral response format.

### **Student Support Services**

At Center City Public Charter Schools, we ensure a Free Appropriate Public Education to our students with disabilities by providing high-quality, meaningful educational opportunities. Our special education program educates students, to the extent possible, under inclusive, co-teaching models, ensuring all students are integrated into the school-wide culture. Students' needs are met through varying levels of services as indicated on their IEP. Special Education is defined as a specially designed set of services in combination with best practices/methodologies created to meet students' needs related to their disability. Services may include: specialized instruction in reading, written expression, mathematics, adaptive physical education, vision, hearing, orientation/mobility; related services in speech/language therapy, occupational therapy, counseling, behavior support and physical therapy and any of these on a consultative basis.

The foundation of our English as a Second Language program is our conviction that our English Language Learners (ELL) can be successful, given a supportive educational environment, research-based programs, and comprehensive instruction. At Center City PCS, we work to address our students' needs in a manner consistent with our educational philosophy and with the English Language Acquisition, Language Enhancement, and Academic Achievement Act under Title III. In the SY15-16, 144 language minority students qualified for direct ESL services at Center City PCS. Center City PCS utilizes a Content-Based ESL Program, in which teachers use English as the medium for providing content area

instruction, adapting their language to the proficiency level of the students. This approach allows teachers to accommodate students from different language backgrounds in the same class and to provide instruction without being proficient in the students' own languages.

#### Interventions

At Center City PCS we have a myriad of interventions that are infused into the core content blocks for our K-5 students. Our Middle School students have a dedicated intervention/advisory block in which we've allocated 45 minutes per day toward academic interventions. All of our schools have access to Ten Marks, Achieve 3000, Lexia, Wilson, Fundations, Just for Words and LLI. Each campus assesses the needs of their students by analyzing MAP, Dibels, and AIMs Web progress monitoring data and provides resources that may exceed the district offerings such as IXL, ST MATH, Mastery Connect, and Curriculet.

#### **Enrichment**

Center City believes in nurturing the whole child. Therefore students at Center City have access to a wide variety of enrichment opportunities both during and after the school day. The Enrichment Department teaches scholars how to integrate communication, body awareness, teamwork, and creativity to develop lifelong skills. The department uses fine arts, languages, and physical education as a catalyst for community and global development. In addition to classroom instruction, students have various opportunities to demonstrate their mastery of arts content through campus and district-based performances and showcases of talent.

### **Professional Development**

Part of Center City's vision is to foster a community of lifelong learners, which includes both students and staff. Therefore, we have a strong emphasis on professional development and coaching, including district-wide professional development, campus-level professional development, and observation, feedback and coaching. Each school year we begin the year with pre-service professional development that focuses on team-building initiatives as well as school culture, curriculum and instruction aligned to the Common Core. In the 2015-16 school year, we had three weeks of preservice professional development for all staff. We also had seven additional, district-wide, professional development days that enabled us to focus on district-wide initiatives and enabled our staff to collaborate across campuses.

Campus-based professional development allows campus leaders to extend the organizational priorities to the campus-level with a specific focus on meeting the needs of all students at that particular campus. Campuses also hold weekly professional learning communities in grade-bands (PK-1st, 2nd-5th grade, and 6th-8th grade). The grade-band PLCs are the primary way of ensuring consistency, communication, and problem-solving between all members of a grade-band team. Consistency across the district is ensured by the use of standard meeting protocols. PLCs address specific student issues, review student work, plan together, review PBIS systems, and strengthen instructional practice. The grade-band meetings are facilitated by a school leader and/or a teacher-leader. Additionally, campus level professional learning communities spend time addressing the data cycle of benchmark assessments. Teachers review individual and class-level data and analyze incorrect responses. Teachers then work in teams to determine instructional takeaways and to create a plan for targeted re-teaching and interventions.

Finally, observation, feedback, and coaching is a critical component of our professional development model. The goal of observations is to provide immediate and actionable feedback to teachers on their instructional practice, including differentiation, student engagement, assessment and classroom culture. Our Principals, Assistant Principals, and Deans provide teachers with ongoing observations, feedback and coaching throughout the school year. All teachers within Center City have at least 10 informal observations as well as at least two formal observations across the school year.

#### Assessment

Center City utilizes a comprehensive battery of assessments to measure student growth and achievement. AppleTree's Every Child Ready (ECR) Language & Literacy and Math assessments, and the Phonological Awareness Literacy Screening (PALS), are administered to all PreKindergarten students five times per year. These early literacy and numeracy assessments are administered in September to develop a baseline of students' levels of proficiency and reading and math readiness. Students' growth is monitored in October, December, and March and final growth and achievement outcome data are gathered from the May administration.

The Dynamic Indicators of Basic Early Literacy Skills (DIBELS) and Text Reading and Comprehension (TRC) assessments are administered to all Kindergarten through 3rd grade students three times per year (Sept, Jan, and May). These literacy screening assessments are used to determine students' reading readiness by assessing Phonemic Awareness, Phonics, Reading Fluency, Comprehension, and Vocabulary skills, and helping teachers to identify students' instructional reading levels. For students with disabilities, we administer the Aimsweb curriculum-based measurements in math and reading to assess and progress monitor students on foundational reading and math skills.

NWEA's Measures of Academic Progress (MAP) is a computer-based assessment that is administered three times per year (Sept, Dec, and June) to Kindergarten through 8th grade students for math and reading and to 6<sup>th</sup> through 8th grade students for science. MAP adapts to students' responses, becoming more complex as students answer questions correctly and easier as they answer questions incorrectly. This adaptive format allows teachers to determine accurate levels of students' learning readiness and adjust instruction accordingly. In addition, MAP determines the projected growth for each student after the baseline assessment, and teachers and students are able to track student progress toward those goals throughout the year. After taking each MAP assessment, teachers and leaders analyze the data and create student-specific goals for growth. Center City has developed in-house district-wide assessments in science and social studies.

Center City PCS also administers internally-developed, end-of-unit assessments to students in grades 2 through 8 for Math and students in grades 3 through 8 for Reading to assess students' mastery of curriculum content. End-of-unit assessments are given at the end of each curriculum unit and used by the Curriculum team to inform improvements and modifications of the curriculum to best meet our students' needs.

### **Mission-Related Programs**

In addition to our broad liberal arts curriculum that ensures excellence through a rigorous academic program, Center City PCS believes in the importance of character education and service to others. These aspects of our mission are fulfilled in a number of ways and are framed by the competencies of character education and service learning, and the annual Capstone project.

Center City PCS emphasizes character education throughout all six campuses. Our morning meetings and morning gatherings allow the students and the school to gather as a community and engage and reflect upon our core values. Each month our students hear and learn about the core value, define it as a community, practice the value through a service and/or leadership activity, and then reflect upon the relationship between the value and their role. Core values are celebrated school-wide through common practices, ongoing dialogue, and a culminating student-centered activity.

All students in Pre-K through 8th grade complete a yearly Capstone Project. The Capstone Project is a core component of the Center City PCS curriculum. These classroom-based, student-centered projects are designed to bring together academic rigor and the elements of our mission - character, excellence, and service - through an in-depth study of a particular local or global issue. Through a project-based learning (PBL) approach, the Capstone Project allows students to access the elements of an interdisciplinary curriculum: core content, authentic experiences, character education, service learning, and community exploration.

For SY15-16, Capstone enabled students to continue to build their knowledge in current events topics that impact their lives. Students investigated the following topics:

- Pre-K students learned about personal habits to keep their bodies healthy.
- Kindergarten students learned about community gardens.
- First grade students learned about the effects of water pollution on their communities.
- Second and third grade students studied gender and racial inequalities.
- Fourth and fifth grade students learned about holistic living for families across the globe.
- Middle school students explored the school to prison pipeline.

The Capstone study culminated in a Celebration of Learning in which students presented to their peers from other grades and family members in attendance. Presentations ranged from whole class presentations to powerpoint presentations, student-created videos, and short policy recommendations.

## **Family Engagement at Center City PCS**

At Center City PCS, we believe that families are integral to student success and that effective family engagement will increase parent satisfaction as well as support the culture of the school community. For the 2015-16 school year, Center City continued a partnership with the Flamboyan Foundation to strengthen our academic partnership with families. Family engagement at our campuses experienced continued growth in the 2015-2016 school year.

Center City PCS seeks to engage families for the specific purpose of advancing student achievement, as well as supporting social and emotional development. In order for educators to effectively partner with families, they must have positive, trusting relationships with them. Concretely this means engaging parents by (1) visiting them in their homes to build trusting relationships and to solicit them as partners in their child's education, and (2) equipping them to monitor and support their child's progress through Academic Partnering. These two practices are cornerstones of Center City's family engagement efforts.

### **Community Events**

Center City PCS offers students multiple opportunities to explore their passions and the diversity of our world, including annual Center City Community Events. Students participate in classroom and campus competitions in a variety of content areas, including Math, Spelling, Science and Enrichment. Winners of the campus competitions advance to the district competitions. Many district winners have the opportunity to advance to city-wide competitions. Our campuses host several sports competitions, family fun days, arts showcases and performances, back-to-school nights, and informational sessions for parents.

At the end of the school year our 8th Grade Luncheon brought all of our 8th grader students together to receive awards, recognition and well wishes from Center City staff. Our keynote speaker for this event was Fox 5 News Anchor, Allison Seymour.

### II. School Performance

## A. Evidence of Performance and Progress

## 1. Progress in Achieving the Mission

Center City Public Charter Schools' mission is to empower our students for lifelong success by building strong character, promoting academic excellence, and generating public service throughout Washington, D.C. We have made significant progress in achieving the mission by implementing a rigorous academic program, engaging in character education, and ensuring that all campuses participate in community service projects.

Center City's academic program is designed to prepare students for high school, college and career. Our curriculum is in its fourth year of implementation and is aligned to the Common Core State Standards for English Language Arts and Mathematics, and the Next Generation Standards for Science. We also have a comprehensive Social Studies program which is designed using using the Common Core ELA standards and the C3 Framework. In addition to providing a broad liberal arts curriculum that is aligned to Common Core Standards, Center City provides students with character education, service learning activities, and a Capstone project.

Center City PCS provides students with character education through morning meetings and morning gatherings that enable students to gather as a community and reflect upon our core values. Each month our students hear and learn about the core value, define it as a community, practice the value through a service and/or leadership activity, and then reflect upon the relationship between the value and their role. Core values are celebrated school-wide through common practices, ongoing dialogue, and a culminating student-centered activity.

All students in Pre-K through 8th grade complete a yearly Capstone Project. The Capstone Project is a core component of the Center City PCS curriculum. These classroom-based, student-centered projects are designed to bring together academic rigor and the elements of our mission - character, excellence, and service - through an in-depth study of a particular local or global issue. Through a project-based learning (PBL) approach, the Capstone Project allows students to access the elements of an interdisciplinary curriculum: core content, authentic experiences, character education, service learning, and community exploration.

To fulfill our mission of generating public service, all students participate in community service activities. In the 2015-16 school year, students participated in activities with Martha's Table, Pennies for Patients, and Bread for the City. The table below provides an overview of students' community service participation in the 2015-16 school year.

# **SY 2015-16 Community Service Participation**

	Organization	Activity	Date	Students Participating	
Brightwood	Emory Beacon of Light	Walk for the Homeless	30-minute walk	All students	
	AYUDA	Raised money for Diabetes	11/2-11/20	All students	
	Emory Beacon of Light	Thanksgiving Food Drive	11/16-11/20	All students	
	Emory Beacon of Light	Christmas Toy Drive	12/7-12/18	All students	
	Leukemia and Lymphoma Society	Pennies for Patients-Students collected money for students with childhood cancers.	2/8-/226	All students	
Capitol Hill		Canned food drive for local food pantry	November	All students participated, middle school students helped with distribution	
		Day of Service-8th graders provided two hours of service for an adult in the building	February	8th grade students	
		Day of Service-middle school students provided two hours of service for an adult in the building	March	6 <sup>th</sup> -8 <sup>th</sup> grade students	
		Raised funds for Red Nose Day to donate to Comic Relief	May	Boys in 1 <sup>st</sup> through 8 <sup>th</sup> grades	
		Students planted a vegetable garden	June	K, 4 <sup>th</sup> and 5 <sup>th</sup> grade students	
Congress Heights	Martha's Table	Students volunteered for Joyful Market (farmer's market at the school)	Monthly throughout the school year	6 <sup>th</sup> -8 <sup>th</sup> grade students	
	American Heart Association	Jump Rope for Heart	May	All students	
	Two Sisters Halfway House	Landscaping and beautification of property	June	4 <sup>th</sup> and 5 <sup>th</sup> grade students	
Petworth	Martha's Table	Separated clothes and prepared food for the homeless	Several times throughout the year	8th grade students	
	Washington Area Rescue League	Volunteered at the shelter	Several times throughout the year	5th grade students	

		Thanksgiving food drive	November 2015	All students
	Leukemia and Lymphoma Society	Pennies for Patients—Students collected money for students with childhood cancers	February-March 2016	All students
Shaw	Martha's Table	Separated clothes and prepared food for the homeless	November 2015	All students
	Martha's Table	Thanksgiving Basket Drive	November 2015	All students
	Leukemia and Lymphoma Society	Pennies for Patients—Students collected money for students with childhood cancers	February-March 2016	All students
	Flint Lives Matter	Collected bottles of water	February-March 2016	All students
		Shoes and clothes drive for orphanage in Nassau, Bahamas	April-May 2016	All students
Trinidad	Howard University Hospital	Students raised money to give towards cancer research	October 2015	All students
		Winter coat/mitten drive	November 2015	All students
		Thanksgiving food drive	November 2015	All students
	Washington Youth Garden	Students planted and grew vegetables and flowers	Throughout the school year	All students
	•		•	•

In addition, we also ensure that students are exposed to career options through career awareness activities and we provide them with guidance through the high school application process.

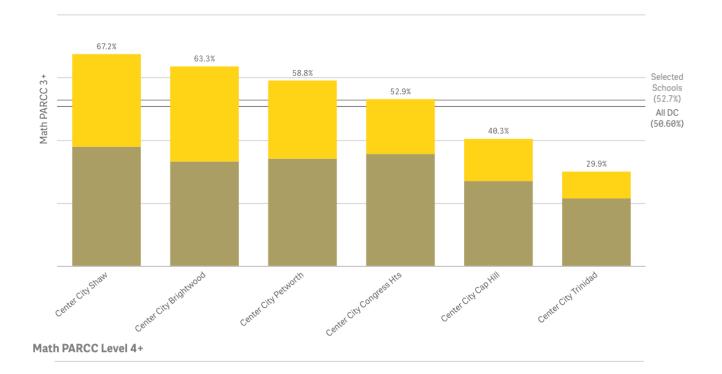

### 2. Progress in Achieving Goals and Achievement Expectations

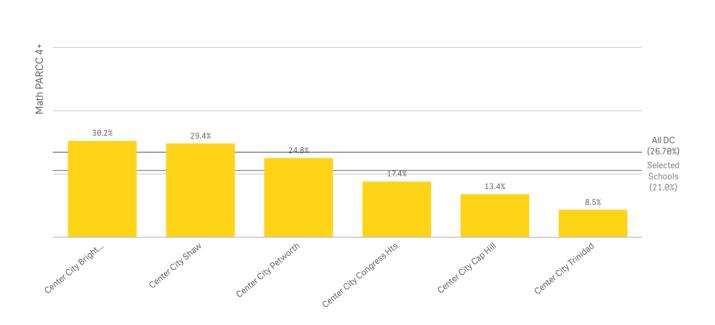

#### **Center City Charter Goals** Notes/Explanation Met/Not **Evidence** Goal Met 70% of our K-8 students Center City PCS proposes that at All Center City PCS academic growth and Met least 70% of all students in grades Kperformed at or above the 40th achievement goals will be measured by the 8 will achieve at Northwest Evaluation Association Measures percentile or met/exceeded or above the 40th percentile or of Academic Progress ("NWEA MAP") their spring growth targets in meet/exceed their spring growth national assessment that is aligned to the math. target in math and reading based on Common Core State Standards in 73% of our K-8 students NWEA MAP national norms by June kindergarten through eighth grade. performed at or above the 40th of each year. percentile or met/exceeded their spring growth targets in reading. Charter average = 54.9% of Partially Students will read and comprehend This goal will be measured using the state grade-level appropriate text in the assessment, based on each campus' Met students approached, met or core content areas. proficiency rates in core content areas as exceeded grade level standards compared to the charter sector average. (3+)Charter average = 28.5% of students met or exceeded grade level standards (4+) Center City PCS=53% (3+); 22% (4+)BRI=57.6% (3+); 24.5% (4+) CAP=45.5% (3+); 9.7% (4+) CON=56.1% (3+); 24.5% (4+) PET=60.3% (3+); 31.9% (4+) SHA=58.7% (3+); 25.2% (4+) TRI=35.9% (3+); 13.7% (4+) This goal will be measured using the state Partially Students will master and apply Charter average = 52.7% of grade-level appropriate assessment, based on each Met students approached, met or computation skills and campus'proficiency rates in mathematics as exceeded grade level standards concepts; they will use compared to charter sector averages. (3+)mathematical reasoning to solve Charter average = 26.4% of problems. students met or exceeded grade level standards (4+) Center City PCS=53% (3+); 21% (4+)BRI=63.3% (3+); 30.2 (4+) CAP=40.3% (3+); 13.4% (4+) CON=52.9% (3+); 17.4% (4+) PET=58.9% (3+); 24.8% (4+) SHA=67.1% (3+); 29.4% (4+) TRI=29.9% (3+); 8.5% (4+) The Center City PCS metric for attendance All Center City PCS campuses will Met Campus attendance rates:

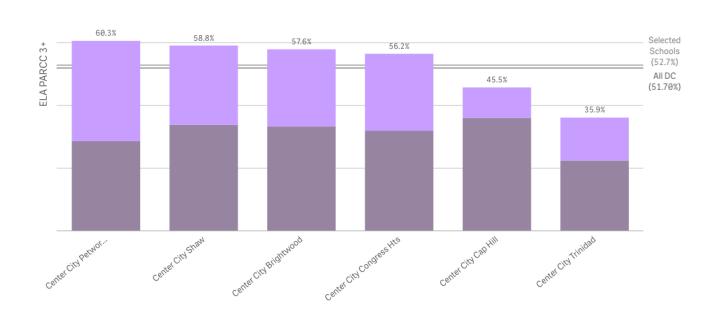

achieve an average of at least 90% attendance each year.	will be the in-seat attendance rate.		BRI = 97.5% CAP = 90.3% CON = 92.5% PET = 93.9% SHA = 92.6% TRI = 90.1%
All Center City PCS campuses should achieve an average of at least 75% re-enrollment each year.	The PCSB re-enrollment target for the PMF is 90% and the floor is 60.7%. To earn 50% of the points for this goal on the PMF, campuses need a re-enrollment rate of 75%.	Partially met	80.87% of all Center City PCS students re-enrolled from 2014- 15 to 2015-16. Campus rates: BRI = 89.7% CAP = 67.5% CON = 80.2% PET = 89.6% SHA = 83.1% TRI = 72.8%
Center City PCS students will build character by performing community service. Our goal is for at least 75% of students in grades 4-8 to participate in a minimum of two community service activities annually as measured by student exit tickets and tracked through PowerSchool.	According to the school's amendment application, "All activities must conclude with a processing activity in which students complete an exit ticket describing their experience and what they learned. Campus leaders will then collect exit tickets and submit them to central office as physical evidence of participation in a sanctioned community service project. Each community service activity will also be logged into PowerSchool so Center City can track student participation." Therefore, PCSB will be able to request this evidence.	Met	See chart of community service participation by campus.

The following graphs provide an overview of Center City campuses' performance on the 2016PARCC in ELA and Mathematics.

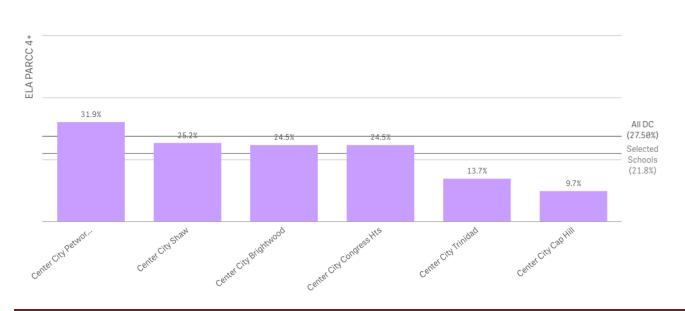

Math PARCC Level 3+

### **ELA PARCC Level 4+**

# B. Lessons Learned and Actions Taken

Center City is pleased with the overall growth and improvement in moving students from 2+ to 3+ on the PARCC assessment. This seemed to be a relative area of growth for our network. We attribute some of that success to a robust launch of ELA interventions from Kindergarten through 8<sup>th</sup> grade with an emphasis on closing the achievement gaps from 3rd to 4th grade. We also believe that the intentional emphasis on the format of the PARCC test and explicitly teaching students how to navigate the technological aspects of the test (tech enhanced questions, multiple correct answers, dragging and dropping text, etc) proved successful in students' test taking.

Some challenges that we plan to address are the quality and rigor of tasks and problems placed before students. In order to be successful in this endeavor, we recognize that there is also significant adaptive work to do with teachers around their efficacy related to students. Despite having rigorous curricular materials, we still see teachers using other materials and/or not allowing students to persevere through the challenge because they do not believe that our students can do this alone. Also, as part of ongoing curriculum revision, we have completely aligned the middle school social studies curriculum with the shifts of Common Core in English/Language Arts, particularly in the areas of text complexity and performance tasks that require students to draw evidence from the texts.

Another area that will be addressed in the 2016-17 school year is that of building a data driven culture. With support from the central office academic team, school leaders will be trained on how to develop, implement, and sustain data meetings in response to informal assessment data. Through regular intervals, teachers will spend more time responding to what students have yet to master and crafting re-teaching plans to address these needs.

We will address low student performance in 3rd grade English Language Arts by investigating the CKLA listening and learning component and finding additional ways to support developing readers by spending additional time with text and more opportunities to respond to texts in writing. Also, since these students will be sitting for PARCC for the first time, we will build in additional opportunities for these students to gain technological fluency.

Finally, to address a slight uptick in suspensions, Center City will invest resources in training staff around restorative practices. We recognize the importance of fostering positive, healthy school climates and helping students learn from their mistakes. By implementing restorative practices in our schools we will shift our thinking from a punishment-oriented focus to a solutions-oriented focus. It is our goal that students will learn to value and regularly use pro-active, positive ways to build and maintain a peaceful classroom community. We also want teachers to understand effective communication and experience how it supports classroom discipline and community building. Restorative practices will be coupled with a refined morning meeting and middle school advisory approach in which teachers will be provided a research-based scope and sequence that address the developmental needs of our students with an emphasis on specific skill building geared towards our core values of character, excellence, and service.

# C. Unique Accomplishments

Three Center City campuses were recognized for strong academic growth in 2015. The Brightwood Campus was named a 2015 Title I Distinguished School. Since 1996, The Title I Association has been selecting school programs for national recognition. Schools must qualify under one of the following areas--1) exceptional student performance for two or more consecutive years and 2) closing the achievement gap between student groups. Technically, Brightwood met both criteria and was the only school from the District of Columbia honored in the 2016 celebration in Houston, Texas. Congress Heights and Shaw were recognized by OSSE as Rewards Schools for demonstrating strong academic growth in the 2014-15 school year.

Two other campuses were recognized for innovative programming. The Congress Heights Campus won a \$100,000. Fight for Children 2015 Quality Schools Initiative Grant. As part of its application to Fight For Children, Center City Congress

Heights developed a strategic plan to incorporate technology into daily instruction, with a goal of improving students' familiarity with and expertise in new technologies in an effort to close the achievement gap. With its Quality Schools Initiative Award, the school aims to not only improve overall performance on standardized assessments, but also to develop 21st century skills among its students so that they are better prepared for school and in life.

Center City's ESL After the Bell program, which provides targeted academic support to English Language Learners in an after-school program, has received external recognition for its success. In addition, New America, a policy think tank, featured the program in a white paper in October 2015, highlighting innovative instructional programs for Dual Language Learners. Shortly after publication, New America convened a group of leading experts on DLLs in Minnesota to spotlight instructional programs that could impact policies to improve outcomes for DLLs. Alicia Passante, the ESL Program Manager for Center City, presented on this panel and shortly thereafter, Center City hosted a joint event with New America at its Petworth campus showcasing the ESL After the Bell program. The national and regional exposure through this collaboration has increased the public's awareness of Center City by highlighting its innovative and intentional programming for this growing demographic of students.

Several staff members were recognized for their work through fellowships or awards in 2015. Adrienne Williams, first grade teacher at the Brightwood Campus, was given an honor roll accolade in the TNTP Fishman Prize competition—a national competition to celebrate and honor teaching excellence. Three Center City staff members were awarded fellowships through the CityBridge Foundation. Rachel Tommelleo, principal at our Brightwood Campus, was named a 2016 School Retool Fellow. The School Retool: DC program grants school leaders a professional development opportunity to use research-based practices to redesign school culture. Hannah Jacobson (Brightwood) and Kayla Larkin (Shaw) were named 2016 Education Innovation Fellows. The Education Innovation Fellowship exposes teacher leaders to effective practices in personalized learning and allows them to develop strategies for implementation in the 2016–2017 school year.

## C. List of Donors
