Weights

Task Force Proposal #1: Redistribute the weights for student growth and achievement to School Environment

Explanation: Early Childhood Only schools would have slightly less weight in student growth and achievement and slightly more weight in School Environment in CLASS.

Indicators by Weight – As Proposed by PCSB

	Start Grade	End Grade	Category	Progress/Growth	Achievement + Gateway	School Environment	
With PK	PK	K, 1, 2, or 3	Early Childhood	35%	35%	30%	
	PK	4, 5, 6, 7, or 8	EC/ES/MS	35%	35% (25%/10%)	30%	
With out PK	K, 1, or 2	1, 2, or 3	Early Childhood	40%	40%	20%	
	K, 1, 2, or 3	4, 5, 6, 7, or 8	EC/ES/MS	40%	40%* (30%/10% or 25%/15%)	20%	
	4, 5, 6, or 7	5, 6, 7, or 8	Middle School	40%	40%* (30%/10% or 25%/15%)	20%	

Indicators by Weight – Task Force Proposal

	Start Grade	End Grade	Category	Progress/ Growth	Achievement + Gateway	School Environment
With PK	PK	K, 1, or 2	Early Childhood	25%	25%	50%
	PK	3	Early Childhood	29%	29%	42%
	PK	4, 5, 6, 7, or 8	EC/ES/MS	35%	35% (25%/10%)	30%

Proposal: Slightly more weight on CLASS for schools with only EC grades

PK-K   PK-3

Original Proposal: EC Scorecard

Task Force Proposal #2: Distribute weight more evenly across grades

Option: Should schools have the option to include K-2 student growth and achievement on scorecard if they use NWEA MAP and end beyond 3rd grade?

NWEA MAP Option– Task Force Member Proposal

	Start Grade	End Grade	Category	Progress/ Growth	Achievement + Gateway	School Environment
With PK	PK	4, 5, 6, 7, or 8	EC/ES/MS	35%	35%	30%
With out PK	K, 1, 2, or 3	4, 5, 6, 7, or 8	EC/ES/MS	40%	40%	20%

Schools have option to include NWEA MAP K-2 scores.
PK-8

Original Proposal: EC,ES,MS Scorecard

PCSB Proposal #3– Maintain reduced Gateway weight for schools without PK

To maintain consistency across frameworks, PCSB proposes to lower Gateway for all schools from 15% previously to 10%

Gateway Weight

	Start Grade	End Grade	Category	Progress/ Growth	Achievement + Gateway	School Environment	
With PK	PK	K, 1, 2, or 3	Early Childhood	35%	35%	30%

	K, 1, 2, or 3	4, 5, 6, 7, or 8	EC/ES/MS	40%	40%* (30%/10% or 25%/15%)	20%	
	4, 5, 6, or 7	5, 6, 7, or 8	Middle School	40%	40%* (30%/10% or 25%/15%)	20%

Attendance & Re-enrollment

Attendance & Re-enrollment

Task Force Proposal #4: Consider Attendance & Re-enrollment floors and targets by school type

PCSB is researching data on three school types:
1. PK-8
2. PK-3
3. 4-8

If data is consistent across all three, there will be one floor and target proposed for all schools.

Attendance & Re-enrollment (cont.)

2014 Data

	In-Seat Attendance			Re-enrollment		
	PK3-8	PK3-3	4-8	PK3-8	PK3-3	4-8
10th Percentile	89.2%	89.1%	89.3%	68.2%	71.3%	68.2%
90th Percentile	95.5%	95.3%	95.9%	94.3%	97.0%	96.7%

CLASS

PCSB Proposal #5: Use 2-year CLASS score for the program level score?

- Viewed as a programmatic score
- Minimize concern when hiring new PK teachers

EC Schools
Specific Questions

Task Force Proposal #6: Include K-2 NWEA MAP data for schools who end in 3rd grade

If yes, should a gateway measure be included (3rd grade reading)

Scorecard with K-2 Student Achievement

Scorecard without K-2 Student Achievement

NWEA MAP Business Rules*

Task Force Proposal #7: K-3 Student Growth

Use national data for 10th and 90th percentiles

Task Force Proposal #8: K-2 Student Achievement

Create similar to PARCC transition floors and

targets

Student Achievement Target: 60th percentile

*Points achieved on NWEA MAP must be similar to points achieved for MGP and Achievement with PARCC

Business Rules:

Floors = calculated based on the lowest 10th percentile of charter school performance over the past three years where the most recent year has 50% weight, the previous year has 30% weight and the year prior to that has 20% weight

Targets = calculated based on the 90th percentile of charter school performance over the past three years where the most recent year has 50% weight, the previous year has 30% weight and the year prior to that has 20% weight

*If the range between the 10th and 90th percentiles is less than 10, we take the 90th percentile and subtract 10
