What conversations, issues, or topics would you like to continue discussing?

- I would like to continue the following conversations: 1) assessment tools for mission specific goals and 2) the criteria for setting the mission specific goals.
- I look forward to the discussion about formatting/layout of the PMF
- Continue to emphasize goal/objective of PMF and the goal/objective of the task force. Group clearly has different thoughts on how PMF will be used (ranking against each other versus against a standard)
- We discussed language-development goals for immersion/bilingual schools in the context of mission specific goals at the meeting but this should really be a separate conversation about how to assess for literacy in immersion/bilingual programs generally.
