

**EC PMF Task Force – Vote Tally  
Student Level Assessment Floors and Targets  
November 12, 2013**

1. One Floor and Target for PK student level assessments 2013-14

Proposed:

Proposed	Floor	Target
PK Student Assessment Indicators	60	100

Proposal	Votes	Comments
Floor 60, Target 100	10 LEAs	I'd like us to consider different floors and ceilings for norm vs. criterion referenced tests. I also think we should consider in year 1 to create more differentiation in schools' PMF points from assessments since, from historical data, schools tend to perform in a very small range.
Floor 60%, Target 90%	1 LEA	None

2. 3<sup>rd</sup> Grade DC CAS Floors and Targets:
