A Note from the School

Community College Preparatory Academy PCS aggressively seeks to meet the challenge of providing education and skills development for under-credited adults (ages 18 and older). Our goal is to empower and prepare adult students for postsecondary education success, viable employment, and lifelong learning in the District of Columbia's knowledge-based economy. In addition to staffing that supports a student-to-counselor ratio of 50 to 1, we have created a Case Management Unit that focuses on identifying and connecting to a broad range of public and private social service supports. We have developed formal partnerships with more than 150 agencies and organizations to assist and encourage students with problem solving and crisis avoidance. We have also developed and implemented workshops in critical thinking and time management to support our students in developing new habits that foster their progress.
