MAPCS Lottery Procedures for Applications for School Year 2020-2021

Application Deadline: March 2, 2020 (Aligned with My School DC, 2nd deadline)

Lottery Date: March 27, 2020 (High School) / May 29, 2020 (Young Adult Learning Center)

The MAPCS application for school year 2020-2021 opens on December 16, 2019 for our High School campus and April 27, 2020 for YALC. If we receive more applications than spaces available we will run the lottery via our SchoolMint application/enrollment software on March 27, 2020 for our high school and May 29, 2020 for the YALC.

Offers will be made via email, phone calls and texts on March 30, 2020 and June 1, 2020 to all students identified in the lottery or to all students that have applied if a lottery was not conducted.

If a lottery is conducted, all students that were not offered a space will automatically be placed on the waitlist through the SchoolMint system in the order the application was received. We will also communicate with those families via email and text regarding their waitlist status.

Students offered a space will be given a timeline in which to accept the offer. We are able to keep track of all communications with the families within our online system and will make every effort to ensure contact with the families.

If a family does not accept the offer they will be able to decline, or the school decline on their behalf. This will automatically bring the next person on the waitlist as eligible to be offered a space.

In addition, our application is open after the lottery and all school year for families to apply. Applications normally close during the last term of the school year for each campus.
