

## **Notes for Completing the Facility Charter Agreement Amendment Application**

---

### *Overview*

This application is for a school seeking approval from the DC Public Charter School Board (DC PCSB) to operate a new facility.<sup>1</sup> The school may operate the new facility in addition to or in lieu of the facility or facilities already recognized in the school's charter agreement.<sup>2</sup>

### *Standard for Approval*

DC PCSB staff will generally recommend that its Board approve a facility amendment if the school makes a reasonable and documented effort to engage its internal community and the community groups located in the area surrounding the proposed space. The internal community includes school staff, students,<sup>3</sup> and current families. Community groups include, but are not limited to, prospective families, Advisory Neighborhood Commissions (ANC), civic and citizens associations, churches, public and public charter schools, and businesses. Before submitting this application, the school must

- Discuss its plans with the community during an open meeting of its board of trustees.
- Notify the appropriate ANC Chairperson and the Single-Member District Commissioner regarding its facility plans in writing. The notification must include a request to be added to an ANC meeting agenda to present the school's facility plans.

Other engagement activities may include developing an action plan that responds to community concerns, commissioning a traffic study, and initiating collaboration with neighboring schools.

---

<sup>1</sup> Per DC PCSB's *Definition of School, Campus, and Facility Policy*, "a facility is a building that houses part of a campus, an entire campus, or multiple campuses. It may be temporary or permanent. A school may operate a single-campus among multiple facilities, or a school may operate multiple campuses in one facility." See the policy here: <https://bit.ly/3wUyKY>.

<sup>2</sup> If a school has multiple facilities per campus or multiple campuses per facility, DC PCSB will ask the school to identify a distinct name for the facility/facilities.

<sup>3</sup> Schools that do not enroll young adult and adult students need not demonstrate student support for the proposed changes.

Ultimately, the school must demonstrate that it has worked with its internal community and the community surrounding the proposed space to address any concerns and needs.

Finally, the school must demonstrate that opening the new facility will not harm its economic viability.

#### *Submission Deadline*

Per DC PCSB's *Charter Agreement Amendment Petition Submission Policy*,<sup>4</sup> a school must submit its facility amendment application at least three months before it intends to serve students in the proposed space. A school that participates in the My School DC (MSDC) lottery that seeks to operate a new facility should submit its amendment request ahead of MSDC's school profile data collection deadline. Failure to do so may result in students not being matched to the new facility.

#### *Contact*

Before completing the application, please contact Melodi Sampson at [msampson@dcpcsb.org](mailto:msampson@dcpcsb.org) to discuss the proposed change(s) or to ask general questions about the charter agreement amendment process.

---

<sup>4</sup> See the *Charter Agreement Amendment Petition Submission Policy* here: <https://bit.ly/34ORPBZ>.

**LOCAL EDUCATION AGENCY (LEA) NAME:**

**BOARD CHAIR NAME:**

**SUBMISSION DATE:**

**SUBJECT:** Facility Amendment Request

**SCHOOL BACKGROUND AND PROPOSAL SUMMARY**

---

**Campus name(s):** Mary McLeod Bethune Day Academy 16<sup>th</sup> Street

**Year(s) opened:** 2015

**Grades served:** PreK3-5th

**Year the school will undergo its next charter review or renewal:**

**Proposal summary:** Mary McLeod Bethune Day Academy PCS proposes relocating its 16<sup>th</sup> Street from 5413 16<sup>th</sup> Street NW to a larger facility at 635 Aspen Street NW. The new location would be named Mary McLeod Bethune Day Academy Takoma location.

**Year the school plans to implement the proposed changes:** 2024

**When did the school's board approve the proposed changes?** *Please attach minutes from the meeting and vote results.*

**FACILITY**

---

**1. Please check the box that best describes the school's proposed change.**

- The LEA or a campus within the LEA is relocating from its current facility to a new facility.
- The LEA or a campus within the LEA is staying in its current facility *and* expanding into an additional facility (i.e., some students will attend the current facility while some will attend the proposed facility).
- The LEA seeks to open a new campus to be housed in a new facility. (Also complete the Expansion and/or Replication Amendment Application.)

- 2. In the table below, list the facility/facilities the school operates (i.e., the facility/facilities identified in the school’s charter agreement). For each entry, report the facility name, the campus(es) and grades served within, and the address.**

<b>Current Facility/Facilities</b>		
<b>Facility Name</b>	<b>Campus Name(s); Grade(s) Served</b>	<b>Address</b>
Sixth Presbyterian Church	MMBDA 16 <sup>th</sup> Street Location; Pk3-5 <sup>th</sup> Grade	5413 16 <sup>th</sup> St. NW Washington, DC 20011

- 3. In the table below, list the facility/facilities the school seeks to operate (i.e., the facility/facilities the school will continue operating along with the facility the school proposes operating). For each entry, report the facility name, the campus(es) and grades served within, and the address.**

<b>Proposed Facility/Facilities</b>		
<b>Facility Name</b>	<b>Campus Name(s); Grades Served</b>	<b>Address</b>
Takoma Park Baptist Church	MMBDA Takoma Location	635 Aspen St. NW Washington, DC 20012

- 4. Will the school lease or purchase the proposed facility? If the school has already purchased or leased the facility, when did the school acquire it?**

The school will lease the proposed facility. The school executed a letter of intent with Takoma Park Baptist Church on October 22, 2023.

- 5. How will the new location impact current students? How will the school encourage student re-enrollment? How will the school support students in**

### **need of transportation to the new location?**

The new location will offer a much improved learning environment for current students by providing more space, improved accessibility and abundant daylight. The new location is located 1.7 miles from the existing location and is approximately a 7 minute drive. A single bus line that runs regularly (Metrobus Route 54) connects the former and proposed locations with stops within one block of each. Additionally, the proposed location is within a half mile of Takoma Metro station. The school will continue to offer bus/van transportation to families to include current stops and a stop close to the current school location. The school will encourage re-enrollment by working with families to determine their transportation needs.

### **6. Will there be newly created seats for additional students? If so, discuss student recruitment efforts in the new school community.**

The proposed relocation will create new seats for additional students. The school will conduct outreach efforts and hold events at the site to recruit students from the surrounding community.

### **7. What is the maximum occupancy at the new location? If the maximum occupancy load for staff and students is less than the total number of staff and students who will occupy the facility at any point in the future, please explain how you will address this issue.**

The maximum occupancy of the new location is upwards of 300 people which is more than approximately 200 students and staff who will occupy the facility in the future at full enrollment.

### **8. Does the proposed space require renovation? If so, describe the renovations the new location will need, either to serve as a school or to be accessible for students with disabilities.**

It is estimated that 50% or more of the existing building will be renovated for the school occupancy. As a result, the area of work will be considered a Level 3 Renovation according to the 2017 Existing Building Code. The renovations that will be required will consist of lead and asbestos abatement, new flooring, lighting, additional restroom facilities. For accessibility for persons with disabilities, an elevator will be installed and restrooms upgraded to include adequate turning radii. New accessible water fountains will be installed and existing doors will be replaced to include levers.

Electrical upgrades will be made to include energy saving light fixtures and additional power outlets will be installed. Network cabling will be installed throughout the facility for internet access, VOIP phone system and intercom. A supplemental ventilation system to provide adequate fresh air. Fire alarm system will be updated and fire suppression system will be brought up to code. Electronic access control will be installed at school entrances along with a robust video surveillance system.

**9. Describe the proposed facility's neighborhood (i.e., is it residential or commercial, is it metro accessible). What value will the school add to the proposed neighborhood?**

The proposed facility is in a residential neighborhood. The facility is metro accessible as it is located a half-mile from Takoma Metro Station. Metrobus Route 54 with service between Takoma Station and Metro Center stops within a block of the facility. MMBDA will provide a quality option for families in the surrounding community that offers the International Baccalaureate Primary Years Programme along with dual language instruction.

**10. List the traditional and public charter schools near the new location, identifying schools that educate the same grade span your school serves/will serve. Describe how the school's mission and academic performance compare to these schools. What impact will the school's relocation have on enrollment at neighboring schools?**

Nearby schools include Takoma Education Campus and Whittier Education Campus MMBDA offers a language immersion program and is an IB School. Academic performance is comparable to these nearby schools.

As the school's population is relatively small and many students are from outside of the neighborhood boundaries, the school's relocation is expected to have a negligible impact on the neighboring schools' enrollment.

**11. When did the school hold an open board of trustees meeting to discuss the proposed change(s)?**

The school held an open board of trustees meeting to discuss the proposed relocation on May 16<sup>th</sup> 2023, August 29<sup>th</sup>, 2023 and November 14, 2023. The Board voted to approve the proposed move on November 14, 2023.

**12. Describe how the school has engaged its internal community in its decision to relocate or expand into the proposed location. Submit documentation of the school's communications with its staff and families regarding the proposed space. Identify the internal community's concerns and how the school is responding to their needs.**

The school informed families of our intent to relocate to a larger facility in 2022. Families were informed of the new proposed location on October 23, 2023. The internal community has been overwhelmingly supportive of the proposed relocation. The concerns that have been raised have been the availability of outdoor playspaces. We have assured the families that such spaces will be in place and have invited them to serve on the playground committee. We have also engaged a landscape designer to assist with conceptual design of the space.

**13. Describe how the school has engaged the community surrounding the proposed location. Please attach documentation of communications with nearby principals, neighbors, ANC representatives, Councilmembers, and other community groups, notifying them of the school's plans.**

**a. When did the school inform the ANC representatives of its facility plans? Has the school already presented its facility plans during an ANC meeting? If not, when will it do so?**

The school informed the ANC representatives of its facility plans on October 23, 2023 upon the church's acceptance of the school's LOI. The school held a virtual meeting with the ANC representative and over 50 neighbors and community members on November 20, 2023 to provide information on the proposed move and to hear and address concerns. The school is on the agenda for the January 27<sup>th</sup> ANC 4B meeting where the ANC will deliberate the proposed move.

**b. Summarize the external community's concerns, if any, and describe the school's response with specificity.**

Members of the community have expressed concerns about increased traffic in the surrounding neighborhood. The school is working with a traffic and transportation consultant to develop pick-up, drop-off and parking plans that will limit impact on the surrounding neighborhood. The consultant will

assess current conditions and make recommendations to improve access to on-site parking lot as well as work with DOT to add signage as needed. The consultant has performed a traffic count at our current location and will extrapolate that data to estimate conditions at full enrollment. The school will meet again with community members where the traffic consultant will present findings and recommendations for implementing a minimally disruptive pickup and dropoff system.

**14. Complete and submit DC PCSB's [5-Year Operating Budget](#) template in accordance with its instructions.**

To: Patricia Callis <p.callis@mmbethune.org>, "D. Parks" <delmar.parks@gmail.com>, d.parks@mmbethune.org, Jasmine Tucker <j.tucker@mmbethune.org>, Pamela Cole <p.cole@mmbethune.org>, a.ahmadu@mmbethune.org, Aminata Ahmadu <aminataahmadu@gmail.com>, Pamela Cole <pccole07@outlook.com>

Good morning,

I am pleased to share the news that the Takoma Park Baptist Church has approved the school to lease their educational facility. We were informed Sunday afternoon via email through Marcus McKay.

On Monday morning, I received a call from Ward 4 Council member (Constituent Services) stating that they received calls from neighbors concerned about our relocation and its impact on their neighborhood. I informed him that we were just provided approval and planned on meeting with parents and neighbors to discuss the relocation.

I have emailed the ANC representative to request a meeting to discuss the relocation and provide information.

PLEASE see the attached letter that was sent to parents.

Linda McKay, EdD

Founder and Executive Director

Mary McLeod Bethune Day Academy PCS

**Exciting Update: Progress in Our Relocation Endeavor**

October 23, 2023

Dear Parents and Guardians,

We hope this message finds you well. As we prepare for the School Year 2024-2025, we have some exciting developments to share with you regarding our North West campus at Mary McLeod Bethune Day Academy PCS.

We are thrilled to share some fantastic news regarding our ongoing efforts to find a new home for our North West campus at Mary McLeod Bethune Day Academy PCS. This morning, we received the green light from the Takoma Park Baptist Church, 635 Aspen St., N.W. , to continue negotiations for the relocation to their educational facility. Takoma Park Baptist Church, provided MMBDA approval to continue with a negotiated discussion to relocate to their educational facility. We are pleased that this location will more than adequately provide the indoor and outdoor environment for our school community!

In response to the growth of our student population and expanding grade levels, we have been diligently exploring options to ensure that our facilities align with our commitment to delivering a high-quality education. It's with immense enthusiasm that we announce our search for a new home for our North West campus.

Our primary objective is to secure a facility that not only accommodates our growing community but also provides exceptional learning and support spaces. We are actively looking to either purchase or lease a facility that can meet the following essential criteria:

- **Adequate Classroom Space:** To ensure that every student has a conducive and spacious environment for learning.
- **Meeting Spaces:** To foster collaboration and facilitate meaningful interactions among our students and staff.
- **Library:** A resource hub for research, reading, and academic exploration.

- Environmental Science Space: An area for hands-on, experiential learning in the field of environmental science.
- Rooms and Offices: To house vital services such as the library, nurse station, art and music rooms, and other key support providers.

We are committed to preserving the sense of community and convenience for our families. To achieve this, we are concentrating our search within a 2-mile radius of our current location at 6th Presbyterian Church. This approach ensures that we remain easily accessible while providing our students and staff with an enhanced and supportive educational environment.

While we are excited about this new chapter in our school's history, please be assured that we are dedicated to ensuring a seamless transition for our students and their families. Our focus remains on delivering a top-notch education, and this relocation is an important step toward achieving that goal.

In the very near future, we will arrange a walk-through of the education building. This visit will allow you to envision the tremendous potential of a renovated, high-quality school building that will support our mission of providing an exceptional education to our students. This is a significant step towards bringing our vision to life, and we are eager to involve you in this exciting journey.

Furthermore, we understand the importance of being transparent and fostering a strong sense of community. To this end, we are in the process of requesting a meeting with the local Advisory Neighborhood Commission (ANC) to discuss our plans for relocation with the neighbors of the Takoma Park Baptist Church. This engagement is a vital step in ensuring that our move aligns with the best interests of the community and creates a harmonious coexistence.

Your involvement, support, and feedback continue to be invaluable to us. We are committed to making this transition as smooth as possible, and your participation in this process is highly appreciated.

We will keep you informed as we make progress in our search and negotiations, and your feedback will be essential in this process. We value your input and involvement in shaping this exciting endeavor. Please don't hesitate to reach out to us if you have any questions. Your partnership and trust are highly appreciated.

Thank you for your continued support of Mary McLeod Bethune Day Academy PCS. We look forward to the opportunities and enriched educational experiences that this move will bring to our students and the entire school community.

Warm Regards,

Linda Cole McKay, Ed.D.
