KIPP DC College Preparatory Andhra Lutz, Principal 202-678-2527 andhra.lutz@kippdc.org

### I. School Description

### A. Mission Statement

KIPP DC is a non-profit network of high-performing, college-preparatory public charter schools in Washington, D.C. All KIPP DC schools are tuition-free, open enrollment schools that educate and support students in the District of Columbia who have historically had limited access to quality educational options. At KIPP DC schools, students develop the knowledge, skills, and confidence to become Washington D. C.'s next generation of leaders. Equipped with a KIPP DC education, our alumni are empowered to be successful in college, careers, and life.

KIPP DC pursues and continues to meet its mission as evidenced by the programs and goal attainment detailed in the following sections.

### B. KIPP DC School Program

### 1. Curriculum Design and Instructional Approach

KIPP DC is one of the largest and highest performing networks of public schools in Washington, D.C. Our students attend school Monday through Friday from 8:00am until 4:00pm. Additionally, KIPP DC students spend approximately 25% more time in the classroom than their peers in the D.C. Public School system. Approximately 72% of our students come from Wards 7 and 8, and 98% are African-American. All KIPP DC schools are grounded in a commitment to excellence, equity, and justice. In partnership with families, we approach our work with a set of core beliefs:

- We believe all students have the right to rigorous, relevant, and joyful learning experiences led by exceptionally talented educators who promote student achievement and a sense of belonging.
- We believe students and alumni best succeed when surrounded by a community of champions and advocates.
- We believe communities thrive when our public school systems are diverse, ambitious, purposeful, and unwavering in their focus on what is best for students.

During the 2019-20 school year, KIPP DC schools educated more than 6,800 students at 18 schools on seven campuses.

### a. Early Childhood and Elementary Programs

KIPP DC early childhood and elementary programs educate students in grades PreK3-4. In grades PreK3-1, two full-time teachers, a lead teacher and a co-teacher teach four or five homerooms at each grade level. Co-teachers stay with their homeroom for the entire day, which helps to maintain stability and support student learning.

Notably, the first information we teach our youngest students is what year they will go to college. This college theme is further underscored by the fact that each homeroom class is named after the homeroom teacher's alma mater. We provide students in grades K-4 with robust and rigorous learning experiences in literacy, math, science, social studies, physical and health education, and the arts. To ensure that each student's educational trajectory puts them on the path to college, careers, and lives of choice and opportunity, we align our instruction to the Common Core State Standards and promote individualized learning through a blended learning model.

In addition, during the pre-pandemic parts of the 2019-20 school year, many of our early childhood and elementary schools held Saturday School, which provided students with opportunities to cultivate their interests and hobbies through family-friendly activities like trips to the zoo, cooking lessons, and dance lessons. Over the years, we have found Saturday School to be a great way to strengthen relationships between teachers, students, and parents, and by extension grow KIPP DC's team and family.

KIPP DC provides students requiring extra assistance, such as students with disabilities and English language learners, with peerless support systems. Our dedicated staff includes special education teachers and coordinators, occupational therapists, speech therapists, compliance managers, and mental health practitioners (social workers), each of whom works to develop and implement individual educational and support plans for these students.

### b. Middle School Program

KIPP DC middle schools educate students in grades 5-8. All middle school students take literacy, writing, math, science, social studies, and physical and health education. In addition to these core classes, students may take electives such as dance, technology, music, art, martial arts, or orchestra. We personalize middle school student learning, so every student has time each day for remediation in classes where they are struggling, or acceleration in classes where they are excelling. Our math curriculum is based on the Common Core State Standards and teachers use assorted materials to plan lessons and deliver content in a way that ensures students master these standards. Similarly, our literacy program is aligned to the Common Core State Standards, and incorporates EngageNY's ELA curriculum module, which focuses on reading, writing, listening, and speaking in response to high-quality texts.

Our middle schools also offer students a diverse set of enrichment activities that vary by school, including orchestra, science club, STEP, Girls on the Run, drumline, track and field, and lacrosse. These activities are integral to students' academic and character development, and help prepare them for success in high school, college, and their careers.

As with our PreK3-4 students, KIPP DC provides middle school students requiring extra assistance, such as students with disabilities and English language learners, with peerless support systems. Our dedicated staff includes special education teachers and coordinators, occupational therapists, speech therapists, compliance managers, and mental health practitioners (social workers), each of whom works to develop and implement individual educational and support plans for these students.

### c. High School Program

KIPP DC's high schools, KIPP DC College Preparatory (KCP) and KIPP DC Somerset College Preparatory (SCP), educate students in grades 9-12. Our high schools are built on a model that prioritizes excellent instruction and growing strong relationships between staff, students, and families to ensure that students are college-ready, persist and graduate from college, and are well-prepared to succeed in an increasingly competitive job market.

Like the rest of our students, KIPP DC high school students attend school for longer days and years, which enables students to accelerate their learning and gives them the opportunity to take multiple AP courses or participate in our NAF Academy of Finance program (KCP) or Digital Media Arts Program (SCP) before they graduate. Using the Common Core State Standards as their guide, teachers plan and implement rigorous lessons and other instructional activities with the goal of improving each and every student's performance on the PARCC and SAT exams. In addition, high school teachers hold weekly office hours to provide students with additional support.

All KIPP DC high schoolers are required to take an advisory program and participate in various community meetings and events, each of which are intended to:

- Strengthen relationships between students and staff;
- Promote students' success;
- Teach students the school's core values;
- Reflect on individual priorities and progress; and
- Ensure each student feels known within the larger school community.

KCP & SCP offer a full complement of extracurricular activities that give our students opportunities outside of the classroom to expand their horizons, ranging from basketball to yearbook to STEP to choir. Students generally participate in at least one activity.

Lastly, we provide unparalleled support to our high school students as they embark upon the college application process. For instance, KIPP DC offers high school students SAT test preparation courses and tutorials, counselors to assist students as they search for and select summer opportunities each year, and a daily college counseling course (seniors only). Moreover, our KIPP Through College & Career (KTC) team supports students as they prepare for and select the right college or career opportunity, and helps them navigate through the application process, access financial aid, and secure internship opportunities. The KTC team begins working with KIPP DC students in middle school to help them prepare for the transition to KIPP DC high schools and other high-performing high schools. Throughout high school, KTC stays connected with our alumni and offers academic, college placement, and career readiness programming. Once our alumni graduate from high school, KTC continues to support and collaborate with them on their path toward college completion and self-sustaining careers.

#### 2. Parent Involvement Efforts

KIPP DC values the role parents play in supporting their students' education. We've implemented a three-pronged approach to engaging families, aimed at leveraging parents as partners in promoting student success. The framework is built on three components: Inform, Engage, and Empower. As a network, we've made it a priority to improve the way

we share two-way information, collaborate with our families and community, and empower our families to have a voice in their school community.

In addition, we make an effort to solicit input and feedback from our parents in our annual Parent Survey and weekly one-on-one in-person or phone interviews to build relationships and gather information to help inform future programmatic decisions.

### The Parent Advisory Board

The Parent Advisory Board serves as a representative group of families from across KIPP DC who provide monthly input on new and existing policies, projects and outreach to help further KIPP DC goals. This board is made up of families from each KIPP DC school and is selected every year.

#### **Orientation Meetings**

School staff have orientation meetings with every newly enrolled

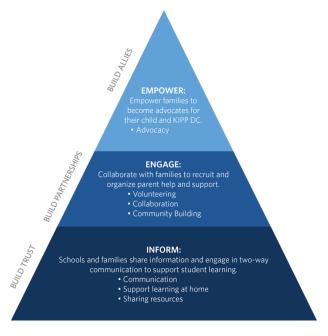

student. These meetings can happen in the student's home or at the school site. The meetings take about two hours and serve as a time for the school staff to start building a relationship with the family, as the family learns about the school and the school learns about the student. One-on-one meetings with the student and family often occur throughout the year, both at scheduled times (like parent/teacher conferences) and unscheduled times, as needed or requested by families or staff.

### **Teacher/Family Communication**

The KIPP DC Parent Survey indicated parents' strong desire to have constant access to their school's staff and faculty, both during school hours and after typical school day hours. To accommodate parent desire, KIPP DC staff are available after hours by cell phone to answer homework questions, talk through any issues that arose during the day, or answer questions about upcoming events.

### **Streamlining Network Communication**

As part of our focus on improving communication, KIPP DC invested in Remind, a mobile application used to make school-wide communication more efficient. In addition, we regularly send out the KIPP Parents of Purpose newsletter, a

monthly newsletter that highlights important dates, events, or notable initiatives taking place within the KIPP DC network.

### **Family Engagement Team**

The Family Engagement Team is comprised of the Director of Engagement and the Manager of Family Support and Engagement. The two team members work closely with the Chief Community Engagement and Growth Officer, along with the Community Relations Manager and Managing Director of Community and Government Affairs.

The role of the Engagement Team is to create internal systems and structures within KIPP DC to ensure that we are providing our families with meaningful and equitable engagement across campuses. Their work includes providing teachers and staff with training and professional development, incubating school-level and district-level parent groups, responding to parent complaints, and providing two-generational supports for families.

### Flamboyan Foundation Partnership

KIPP DC works with the Flamboyan Foundation to develop leaders in creating authentic and lasting engagement with families. KIPP DC teachers have also participated in training on family interviews and active listening.

#### **Parent Organization**

All parents are encouraged to participate in their school's KIPP DC Parent Organization (KPO). The mission of the various KPOs is to support the students, teachers, and administration of KIPP DC. The organizations set their own goals in partnership with school leadership. The KPOs are a valuable lever in engaging a positive relationship between parents, teachers, and students.

The following are examples of ways KIPP DC schools foster and support parent involvement initiatives:

- Open Houses
- One-on-one Home Visits
- Student Work Showcases
- Parent/Teacher Conferences
- Parent Trainings with Social Workers and Psychologists
- Field Trip Chaperone Opportunities

#### **Parent Group Incubation**

To help schools build community leadership skills and to jumpstart collaboration, KIPP DC launched a parent group incubation program. The incubation program is a multi-week, strategic problem-solving professional learning community aimed at creating opportunities for our parents, school leaders, and teachers to work together to identify and solve challenges within the school community using human-centered design.

This process is rooted in the notion that there is a solution for every problem and the people best suited to solve those problems are the ones who experience them on a daily basis. This means that we are working with families, staff, administration, and students to come up with solutions to complex challenges within their school communities.

The process utilizes event gamification to build relationships, while taking participants through a six-pronged process to:

- Gather It: Use primary data to help inform our actions through stakeholder interviews
- Understand It: Gain an understanding of the climate through identifying assets and barriers
- **Define It**: Identify a narrowly focused problem statement
- Ideate It: Come up with ideas for how we can solve the problem statement using "Yes And" mentality.

#### 3. Response to COVID-19

Beginning on March 16, 2020, KIPP DC schools and students transitioned to remote learning in accordance with guidance provided by the Department of Health. In order to ensure that all students had access to remote learning, KIPP DC distributed devices to students in PK-3 — eighth grade. Students in high school already had devices provided so were

able to continue to use those. Students in PK-3  $-4^{th}$  grade were provided a tablet for direct access to instruction and students in middle school were provided a Chromebook for direct access to instruction. Teachers engaged students in Zoom meetings, blended learning platforms, and provided a wide variety of texts via e-readers. KIPP DC also provided materials for students to engage in learning at home including paper packets, pencils, markers, etc.

During the remote learning in the spring, teachers used Deanslist to track contact with students. KIPP DC set up systems for all of our students (and/or parents, as appropriate) to have at least two touchpoints a week via individualized or small group touchpoints (calls, zoom, facetime sessions). These calls were logged into a daily report that school leaders were able to use to manage their targets, employ interventions, etc. Additionally, our related service providers worked hard to ensure that students' services were fully met during the time of closure.

In addition to the general education supports provided during this period of distance learning, students with disabilities received supports and instruction from special education teachers and related service providers. Special education teachers provided specialized instruction twice a week to students with IEPs. Instruction was provided through the method(s) of communication that is best accessible by each student. These methods of communication included but were not limited to Zoom, Google Hang Out, and phone calls.

The KIPP DC community engagement team was very focused on ensuring all students and families received the resources and supports they need to make it through this difficult time. This effort included problem solving with families and identifying barriers/concerns that can be addressed with community supports, including but not limited to medical care, mental health care, food and financial assistance. As it specifically relates to distance learning, staff were in consistent communication with families discussing and problem solving any area of concern and barriers. Families were surveyed about remote learning to help the LEA better understand any areas of concern that need to be addressed. KIPP DC maintained contracts with supportive organizations and vendors to assist with communication needs (such as translation services) and technology support (such as hardware and internet connectivity).

Last spring, during the COVID-related school closure and subsequent shift to remote learning, our priorities centered on student/family engagement and the emotional well-being of our students. Our systems were therefore focused on class attendance, completion of student activities on our learning platforms, and communications with students and families by our teachers and school staff. We did not administer any online assessments and instead focused on class and homework assignments for the remainder of the school year.

### **II.** School Performance

#### A. Performance and Progress

KIPP DC aligns annual goals and achievement expectations to execute our mission to create and sustain the highest quality school system in Washington, D.C. at each of our 18 schools.

KIPP DC measures student achievement in a variety of ways, including students' mastery of standards by content area, growth within each year, and college-readiness indicators. Early childhood programs measure PreK3 and PreK4 student achievement in reading and mathematics with the Peabody Picture Vocabulary Test (PPVT) and the Test of Early Mathematics Ability (TEMA). We use multiple assessments to measure individual student performance in grades K-12, the two most prominent of which are (1) the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment and (2) the Northwest Evaluation Association's Measures of Academic Progress (NWEA MAP). Both tests are aligned with the Common Core State Standards and measure progress on college- and career-readiness indicators. The NWEA MAP is a nationally-normed assessment administered in the beginning, middle, and end-of-year to students in grades K-8. For this annual report, aggressive NWEA MAP goals around the percentage of students meeting grade-level college readiness benchmarks and growth standards are set for students in grades K-2. For students in grades 3-8 and high school, KIPP DC sets similarly aggressive goals around achievement and growth on the PARCC assessment.

### **B.** Unique Accomplishments

#### **School Performance**

- KIPP DC transitioned from students taking the ACT to the SAT to more appropriately prepare students for college admissions reviews. KIPP DC College Preparatory students scored on average higher than their peers in the DC Charter sector.
- Advanced Placement participation rates continue to rise at both high schools, with a record 290 tests administered in the 2019-20 school year.
- Of note, our Advanced Placement Computer Science program was honored by The College Board with their Female Diversity Award. 69% of students in 2019-20 "passed" with a 3+ score on the exam, well outpacing the District average.

### **College & Career**

- 100% of the students in KIPP DC's College Preparatory Academy and KIPP DC Somerset Preparatory's Class of 2020 were accepted into colleges, universities, and workforce development programs.
- Collectively, the group earned a record-breaking \$6 million in scholarships.
- KIPP DC launched a Summer Career Fellows program to expose current high school students to a variety of career fields.

### **Community Engagement**

- The KIPP DC team & family members proudly participated in the Capital Pride Parade.
- In partnership with the National Coalition of 100 Black Women, Inc., KIPP DC hosted the second annual Girls Embracing Their Magic & Strength Summit (G.E.M.S Summit).
- Middle and high school students from across the District enjoyed a day of conversation and activity at KIPP DC's second annual Young Men's Empowerment Summit.
- KIPP DC launched its Codes Bootcamp—a 10-week intensive coding boot camp for adult residents in Wards 7 and 8.
- KIPP DC's Engagement Team launched the Engagement Leaders Fellowship—an opportunity for teacher leaders to grow school-based relationships and improve student outcomes by leveraging parents as virtual partners.
- Nearly 50 family members and staff marched in the annual Martin Luther King, Jr. Day Parade in Ward 8.
- In partnership with the Deputy Mayor for Education, KIPP DC hosted a series of school-based community meetings with other LEAs across the city to address issues around safe passage. The series culminated in a city-wide convening at KIPP DC College Preparatory where city leaders were pitched safe passage solutions from students across the District. The winning pitch received seed funding and backing from the Deputy Mayor.

### **Extracurriculars**

- The KCP Panther Boys Football team won our first state championship in school history.
- We expanded our partnership with Pretty Brown Girls for elementary and middle school girls. This afterschool program builds self-confidence and cultivates the social, emotional, and intellectual strength of our students.
- AIM Academy's Lego Robotics team won first place in the regional robotics tournament.

#### **Talent**

- KIPP DC launched its first public vice principal application process, ensuring a more equitable and transparent pathway to school leadership for our staff.
- The Black Male Educators Initiative (BMen) was launched to support and retain more Black Male Educators

### **Honors and Awards**

- KIPP DC Heights Academy was named a National Blue Ribbon School by the U.S. Department of Education.
- Six KIPP DC schools received grants from Amazon to further propel their Lego Robotics clubs.
- DC CAN awarded \$27K to KIPP DC College Preparatory's NAF Academy of Finance to expand the program.
- KIPP DC's mental health team was awarded \$402K to further expand the reach and impact of their work.
- The Marriott Family Foundation donated \$4 million towards our second permanent high school campus.

### D. School Year 2019-20 Campus Data Reports

### Notes:

- The COVID-19 pandemic caused DC public and public charter schools to transition to remote learning after March 13, 2020. Schools were not required to report daily attendance or discipline events during this initial period of remote learning. Therefore, it is important to note that the data for SY 2019-20 effectively end on March 13, 2020.
- The provided in-seat attendance rates align to the in-seat attendance rates through March 13, 2020 available in OSSE's SY19-20 Authoritative Attendance Qlik application as of August 2020. However, the validated rates that schools will confirm with OSSE during Metric Calculation Confirmation this fall may vary slightly.
- Unvalidated MYW and MYE rates are provided based on examining student movement between 10/6 and 3/13 in SY 2019-20, attempting to mimic the DC School Report Card business rules as closely as possible. However, the validated student mobility rates that schools will confirm with OSSE during Metric Calculation Confirmation this fall may vary slightly.

## KIPP DC Notes to Financial Statements For the Year Ended June 30, 2020

For the annual audit, KIPP DC prepares financial statements and disclosures in compliance with generally accepted accounting principles (GAAP). For interim reporting, management has determined that the additional cost to prepare fully GAAP compliant interim financial reports outweighs the benefits and prefers to use the savings to support programmatic and operational expenditures. As a result, certain GAAP requirements are not incorporated in the interim financial statements. This is an acceptable and common practice used for the purpose of interim financial reporting for nonprofit organizations. The following lists the significant departures from GAAP for this set of interim financial statements:

- 1. Substantially all disclosures have been omitted
- 2. Expenses are not presented on a functional basis
- 3. Not all statements present comparative data for 2019

If the above departures from U.S. GAAP were included in the financial statements, they might influence the user's conclusions about the KIPP DC's financial position, changes in net assets, and cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.

KIPP DC: *Operating Budget -- Board of Directors Approved* For the Fiscal Year Ending June 30, 2021
