## INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of  
Carlos Rosario International Public Charter School

### Report on the Stand-Alone Financial Statements

We have audited the accompanying stand-alone financial statements of the Carlos Rosario International Public Charter School (a nonprofit organization) which comprise the stand-alone statements of financial position as of June 30, 2018 and 2017, and the related stand-alone statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

### *Management's Responsibility for the Stand-Alone Financial Statements*

Management is responsible for the preparation and fair presentation of these stand-alone financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these stand-alone financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the stand-alone financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the stand-alone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the stand-alone financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the stand-alone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## ***Opinion***

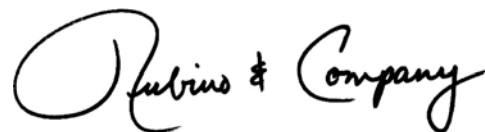

In our opinion, the stand-alone financial statements referred to above present fairly, in all material respects, the financial position of the Carlos Rosario International Public Charter School as of June 30, 2018 and 2017, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## ***Other Matter – Consolidated Financial Statements***

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated statements of financial position of the Carlos Rosario International Public Charter School and Affiliates as of June 30, 2018 and 2017, and the related consolidated statements of activities and cash flows for the years then ended (none of which are presented herein), and we expressed an unmodified opinion on those consolidated financial statements. Such consolidated financial statements are the general-purpose financial statements of the Carlos Rosario International Public Charter School and Affiliates, and the stand-alone financial statements of the Carlos Rosario International Public Charter School presented herein are not a valid substitute for those consolidated financial statements.

## ***Other Matter – Supplementary Information***

Our audit was conducted for the purpose of forming an opinion on the stand-alone financial statements as a whole. The schedule of functional expenses is presented for purposes of additional analysis and is not a required part of the stand-alone financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the stand-alone financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the stand-alone financial statements as a whole.

**1. Organization**

The Carlos Rosario International Public Charter School (the School) was organized in September 1998 under the District of Columbia School Reform Act of 1995. The School's mission is to provide education that prepares the diverse adult immigrant population of Washington, DC to become invested, productive citizens and members of the American society who give back to family and community. The School accomplishes this through excellence in teaching and learning in partnership with the community by fostering a safe and compassionate learning environment.

The School offers classes to adults in subjects including English, U.S. Citizenship, GED preparation, computer literacy, culinary arts, and family literacy. The School's enrollment for the school years 2018 and 2017, were approximately 2,100 and 2,050 students, respectively.

**2. Summary of Significant Accounting Policies**

Basis of Presentation

These statements present the stand-alone statements of financial position, activities, and cash flows of the School only. Separate consolidated financial statements have been issued for the School and Community Capital Corporation and its Affiliate. Reference should be made to these separate consolidated financial statements for the year ended June 30, 2018, which serve as the School's general-purpose financial statements and are intended to present the School's consolidated financial position, results of operations, and cash flows in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of stand-alone financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the stand-alone financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**2. Summary of Significant Accounting Policies (continued)**

Cash and Cash Equivalents

The School maintains cash balances at various financial institutions which, at times, may exceed federally insured limits. Cash equivalents at June 30, 2017 included money market accounts. The School has not experienced any losses related to these accounts and does not believe it is exposed to any significant credit risk on cash and cash equivalents. For the purposes of the statement of cash flows, the School considers all highly liquid debt instruments with a maturity of three months or less to be cash equivalents, except the cash and cash equivalents held as part of the long-term investments.

Facility Reserve Funds

The facility reserve funds are segregated cash that the School is required to maintain under a contractual obligation to a related party (Note 5).

Investments

Investments are recorded at estimated fair value based on quoted market prices provided by the investment managers. Realized and unrealized holding gains and losses are included as non-operating investment income in the statement of activities. Net investment income is reported as an increase in unrestricted net assets, unless restricted by donor or law.

Property and Equipment

The School capitalizes all property and equipment purchased in excess of \$10,000. Property and equipment is recorded at cost, and donated property is recorded at fair market value. Maintenance and repairs are expensed as incurred. Significant renewals and betterments are capitalized.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, ranging from three to twenty years. The statements of financial position also reflect assets obtained under capital lease agreements. Amortization for capital leased assets is calculated as depreciable equipment. The amortization of leasehold improvements is recorded over the shorter of the lease term or the estimated useful life of the improvements. At the time assets are retired or otherwise disposed of, the property and related accumulated depreciation and amortization accounts are relieved of the applicable amounts and any gain or loss is credited or charged to income.

**2. Summary of Significant Accounting Policies (continued)**

Contributions Receivable

Contributions receivable, if any, are stated at fair value, net of any applicable discounts. An allowance for bad debt is recorded for any uncollectible amounts in the period such a determination is made. No such allowance was recorded for years ended June 30, 2018 and 2017.

Support and Funding

The School receives a per-pupil allocation from the District of Columbia to cover the cost of academic expenses. This student allocation is on a per-pupil basis and includes academic year funding and a facilities allotment. The School recognizes the funding as revenue and support in the year in which the School term is conducted.

Contributions and Net Assets

Contributions and unconditional promises to give are recorded as support, at fair value, when received. Contributions and unconditional promises to give that are restricted by the donor as to time or purpose, are reported as an increase in temporarily restricted net assets. When a time restriction ends, or a purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Donor restricted contributions, whose restrictions are met in the same reporting period, are reported as unrestricted support.

Grant Revenue and Support

Revenue and support from government contracts and grants that provide for cost reimbursement is recognized when the related direct and allocated indirect expenses are incurred, deliverables are met, or per-diem services are provided. Revenue recognized in excess of cash received is reported as a grant receivable. Cash received in excess of revenue recognized is reported as deferred revenue.

**2. Summary of Significant Accounting Policies (continued)**

Functional Allocation of Expenses

The costs of providing the programs have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated to the appropriate programs and administrative services based on the functions they directly benefit or upon management's estimates of the proportion of the expenses applicable to each function. General and administrative expenses include those expenses that are not directly identifiable with any other specific function but that provide for the overall support and direction of the School.

Tax Status

Under the provision of Section 501(c)(3) of the Internal Revenue Code and the applicable income tax regulations of the District of Columbia, the School is exempt from taxes on income other than unrelated business income. No provision for income taxes is required for either 2018 or 2017. Tax years ended June 30, 2015 through 2017 remain open to examination by the taxing jurisdictions to which the School is subject, and they have not been extended beyond the applicable statute of limitations.

Uncertainty in Income Taxes

The School has a process in place to ensure the maintenance of its exempt-status; to identify and report unrelated business income; to determine its filing and tax obligations in jurisdictions for which it has nexus; and to identify and evaluate other matters that may be considered tax positions. The School has determined that there are no material uncertain tax positions that require recognition or disclosure in the financial statements.

Subsequent Events

Management has evaluated subsequent events through November 27, 2018 which is the date the stand-alone financial statements were available to be issued.

Total depreciation and amortization expense for the years ended June 30, 2018 and 2017, was \$1,606,817 and \$1,624,975, respectively.

The School has capitalized costs for leasehold improvements at the Harvard Street and V Street locations. The capitalized balance as of June 30, 2018 and 2017 was \$11,259,921 and \$11,197,629, respectively, and is being amortized as discussed in Note 2. See Notes 5 and 7 for further information regarding the related party leases.

The School entered into a capital lease for classroom and office space with CCC. See Note 7 for further information regarding the lease agreement.

**5. Related Party Transactions**

Community Capital Corporation (CCC)

CCC was incorporated in 2001, received 501(c)(3) non-profit organization exempt status in 2002, and in 2008 was designated as a Type 2 supporting organization to the School under Section 509(a)(3) of the Internal Revenue Code. CCC's purpose is to operate for charitable and educational purposes for the benefit of the School. The primary role of CCC has been as the developer, manager and landlord of the two facilities that the School occupies.

**5. Related Party Transactions (continued)**

CCC has a long-term prime lease agreement with the District of Columbia to lease a property on Harvard Street that required substantial building improvements. The School, in turn, entered into a long-term sublease with CCC for office and classroom space in this property. The School is now the sole tenant of the Harvard Street campus.

The costs of the building improvements were originally financed by the issuance of a tax-exempt bond. The financing agreement supporting the bond required the School to guarantee CCC's financial obligations to the lending institution. This guarantee covered assets and contracts. In August 2013, CCC refinanced the Harvard Street property, entered into a new term-loan for \$6,107,104 with Bank of America, and used its proceeds to pay off the tax-exempt bond balance. The School is the guarantor of the term-loan and is subject to certain financial covenants, with which the School is in compliance.

In addition, CCC led in the purchase, building, and development of the School's second campus, the Sonia Gutierrez Campus in Northeast DC. The School is the largest tenant of that building. As the leaseholder for the School's two campus buildings, CCC provides standard landlord facility services in addition to contracting with the School to provided expanded facility support services to the School. The School serves as a guarantor of the mortgages on those properties. The School also provides office support services to CCC through a management services agreement.

Community Capital Corporation-Sonia Gutierrez Campus (CCC-SGC) was incorporated on October 10, 2012, as a nonprofit 501(c)(2) title holding corporation under the laws of the District of Columbia. The organization was formed to hold the real estate property located at 514 V Street, NE, Washington D.C., the Sonia Gutierrez Campus, which has been developed for educational uses on behalf of its parent, Community Capital Corporation (CCC).

During December 2011, CCC purchased land for approximately \$2 million, and the title to the property was transferred to CCC-SGC during 2013. The School entered into a long-term sublease agreement for classroom and office space for a term of twenty-five years. The lease has been accounted as a capital lease (Note 7). The land has been developed to build the Sonia Gutierrez campus as described above. The development costs, including furniture and fixtures, were approximately \$21 million.

The land acquisition has been financed by a grant from the District of Columbia's Office of the State Superintendent of Education (OSSE). The construction and equipment purchase is being financed with Banc of America CDE V, LLC, a North Carolina limited liability company (BOA CDE), and ESIC New Markets Partners Limited Partnership, a Maryland limited partnership (ESIC CDE) (collectively referred to as the lenders).

**5. Related Party Transactions (continued)**

CCC shares certain personnel, administrative, and equipment costs with the School. Beginning in 2016, CCC paid its own salaries and benefits and no longer shared labor costs with the School, except for one employee whose salary and fringe benefit expense is allocated based on actual time spent on each organization. The School also processes other payments for shared expenses and is reimbursed for such operating costs based on a cost sharing agreement that provides for a fixed monthly fee of \$10,000. Total amounts received from CCC were \$135,803 and \$138,529 for years ended June 30, 2018 and 2017, respectively. The balance owed from CCC related to these expenses totaled \$24,249 and \$86,167 at June 30, 2018 and 2017, respectively.

During 2018 and 2017, the School incurred costs related to renovations and consulting and security expenses that were paid for by CCC. At June 30, 2018 and 2017, the School owed CCC \$101,456 and \$2,186,460, respectively, for these expenses. Cash payments for rent and capital leases paid to CCC totaled \$5,294,430 and \$4,946,593 for 2018 and 2017, respectively.

Consolidation

The accompanying stand-alone financial statements reflect only the activities and net assets of the School. Separate consolidated statements have been issued for the School and Community Capital Corporation and its Affiliate (Note 2.)

**6. Net Assets**

Temporarily restricted net assets at June 30, 2018 and 2017, were available for the following purposes:

	<u>2018</u>	<u>2017</u>
Student scholarships	\$ 103,083	\$ 56,206
IME BECAS - Scholarship	<u>9,790</u>	<u>10,540</u>
Temporarily restricted net assets	<u>\$ 112,873</u>	<u>\$ 66,746</u>

Net assets were released from donor restrictions by incurring expenses satisfying the restricted purposes.

Capital Leases

As mentioned in Notes 4 and 5, CCC-SGC has title to the Sonia Gutierrez Campus. On October 31, 2012, CCC-SGC closed the financing with proceeds from loans enhanced by federal new market tax credits amounting to approximately \$21 million (Note 4). Under the master loan and disbursement agreement, the School has secured the debt with, among other things, the charter per pupil allotment and general revenues, subordinated only to the security interest of CCC as collateral for the School's rent obligations. Starting six months after the completion of the building construction, the School was required to comply with additional financial covenants. The School is in compliance with the financial covenants at June 30, 2018 and 2017.

CCC-SGC entered into a master lease agreement with CCC on October 31, 2012, for 32 years in which CCC leases the building from CCC-SGC commencing on the delivery date, which was the date the certificate of occupancy was issued. In turn, the School signed a sublease agreement on October 12, 2012 with CCC for classroom and office space at the Sonia Gutierrez Campus for a period of twenty-five years commencing on the delivery date, which was the date the certificate of occupancy was issued. This sublease agreement replaced the build-to-suit master lease agreement signed on June 1, 2012 (Note 4). Complying with the sublease terms, the School started paying rent on October 1, 2013, at which time the sublease was accounted for as a capital lease.

In addition, the School has entered into lease agreements to finance certain equipment over periods ranging from 36 to 60 months. These lease agreements have been classified as capital leases which are generally accounted for as additions to property and equipment using lease financing.

Interest expense for the years ended June 30, 2018 and 2017, was \$1,568,207 and \$1,525,645, respectively. At June 30, 2018 and 2017, the book value of the capital lease assets is \$14,146,637 and \$14,847,211, respectively, net of accumulated amortization of \$3,367,713 and \$2,667,139, respectively.

Operating Leases

As described in Notes 4 and 5, the School entered into a long-term sublease agreement for classroom and office space at Harvard Street with CCC which expires in July 2021. During 2011, the School and CCC signed the fourth addendum to the commercial sublease. Among the modifications are provisions for increase in rentable square feet, rental of the parking lot, minimum annual escalation increases, and a provision for an additional rent-assessment fee known as the facility repair and improvement reserve assessment fee (the reserve fund). All terms and clauses of the master lease not amended by this addendum remained in full force.

Under the terms of the addendum, the School was initially required to pay \$1,000,000 to CCC to maintain in the reserve fund to be used for building repairs and improvements. The addendum also requires CCC to conduct an environmental facility and building assessment study every three-years to determine the sufficiency of the reserve, which can be funded in a lump sum or quarterly.

**7. Commitments and Contingencies (continued)**

During 2017, \$1,273,849 of the reserve was used towards renovations for the School. In 2018, there were no renovations made; therefore, the reserve fund value remained unchanged. The balance of the reserve fund as of June 30, 2018 and 2017 was \$304,775, and is included in the accompanying statement of financial position as a non-current asset.

This lease calls for monthly rent with annual increases until the expiration of the lease effective July 2021. The total lease payments are recorded as rent expense on a straight-line basis over the lease period resulting in a deferred rent liability. The deferred rent balance at June 30, 2018 and 2017 totaled \$1,677,142 and \$2,017,116, respectively.

Rent expense for years ended June 30, 2018 and 2017, was \$3,245,772 and \$3,258,575, respectively.

Future minimum lease payments under operating leases are as follows:

Year ending June 30, 2019	\$	3,665,000
2020		3,765,000
2021		3,868,000
2022		<u>331,000</u>
Total	\$	<u>11,629,000</u>

Employment Contract

The School has an employment contract with its Chief Executive Officer, which provides for future payments as services are rendered. The agreement is for a five-year period ending on August 1, 2019.

**8. Retirement Plans**

The School adopted a 401(k) Plan effective August 15, 2013 for all employees over 21 years of age who have completed six months of service working 17.5 hours weekly or 408 hours during the six-month period. This is a plan with salary deferral options (pre-tax and Roth), discretionary matching contributions, and a safe harbor non-elective contribution of 3% of employees' compensation. The matching contribution is 300% of the first 1% employees contribute from their compensation. Participants are immediately vested in all contributions. The School's pension expense for the years ended June 30, 2018 and 2017, totaled \$747,598 and \$678,647, respectively.

The 401(k) Plan replaced a formerly sponsored 403(b) Plan. Participants have the option to rollover the assets to the 401(k) Plan or to convert their accounts into an IRA. The School plans to terminate the 403(b) Plan when all assets are distributed.

The School sponsors a nonqualified deferred compensation plan under the Internal Revenue Code Section 457(b). Funds are invested in mutual funds and are included with other assets and other liabilities in the accompanying statements of financial position. The School's obligation is limited to the market value of the invested funds which was \$241,120 and \$214,511 at June 30, 2018 and 2017, respectively.

The School also sponsors a nonqualified deferred compensation plan under Internal Revenue Code Section 457(f). Funds are invested in mutual funds and are included with other assets and other liabilities in the accompanying statements of financial position. The School's obligation is limited to the market value of the invested funds which was \$48,619 and \$81,639 at June 30, 2018 and 2017, respectively.

**9. Postretirement Benefits – Healthcare and Dental**

In addition to providing pension benefits, in fiscal year 2015, the School adopted a voluntary early retirement incentive program. The program will permit eligible employees, who desire to retire following the attainment of age sixty-two but prior to the attainment of age sixty-five, an opportunity to continue to receive medical insurance from the School for a specified period at the same rate and level provided to actively employed employees of the School. To be eligible to participate, the employee must have reached the age of 62, have been enrolled in one of the three medical plans offered by the School for at least five years, and have 15 years of full time employment with the School. Surviving spouses are not covered.

The Plan’s fiscal year-end and the Plan’s valuation are June 30. The School has not contributed to the postretirement benefit plan in fiscal years 2018 or 2017 and the Plan is currently unfunded. There were no benefits paid by the Trust during the years ended June 30, 2018 and 2017.

A summary of the net periodic postretirement benefit costs for the years ended June 30, 2018 and 2017, are as follows:

	<u>2018</u>	<u>2017</u>
Service cost	\$ 35,920	\$ 37,927
Interest cost	<u>12,781</u>	<u>11,812</u>
Net periodic postretirement benefit cost	<u>\$ 48,701</u>	<u>\$ 49,739</u>

The following table sets forth the financial status of the plan for the years ended June 30, 2018 and 2017:

	<u>2018</u>	<u>2017</u>
Accumulated postretirement benefit obligation (APBO):		
Active participants fully eligible	\$ (26,095)	\$ (26,276)
Active participants not fully eligible	(340,161)	(314,731)
Inactive participants	<u>-</u>	<u>(9,898)</u>
Total APBO	(366,256)	(350,905)

**9. Postretirement Benefits - Healthcare and Dental (continued)**

The weighted average discount rate used to determine the APBO was 4.10% and 3.70% at June 30, 2018 and 2017, respectively, and the long-term inflation rate was 4.50% in 2018 and 2017. For measurement purposes, assumed healthcare cost trend rates of 7% in 2018 were used, trending down to 4.50%. This rate should be achieved in 2026.

If the assumed healthcare cost trend rate were increased by 1 percentage point, the rates would increase the aggregate of interest and service cost components of the NPPBC by 14.5% or \$7,212. The APBO as of June 30, 2018 would increase by 11.5% or \$40,354.

If the assumed healthcare cost trend rate were decreased by 1 percentage point, the rates would decrease the aggregate of interest and service cost components of the NPPBC by 12.2% or \$6,068. The APBO as of June 30, 2018 would decrease 9.9% or \$34,740.

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid over the next ten fiscal years:

Years ending June 30, 2019	\$	10,080
2020		21,030
2021		16,741
2022		12,794
2023		11,028
2024-2028		<u>129,329</u>
Total	\$	<u>201,002</u>

**10. Donated Services**

In 2018 and 2017, the School received pro-bono legal services valued at \$16,403 and \$43,619, respectively. These amounts are reflected as revenue and expense in the accompanying financial statements.

**11. Fair Value Measurements**

The School reports its fair value measures using a three-level hierarchy that prioritizes the inputs used to measure fair value. This hierarchy, established by generally accepted accounting principles, gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The fair value hierarchy is as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities that the School has the ability to access.
- Level 2: Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported as of the end of the reporting period. For the years ended June 30, 2018 and 2017, there were no significant transfers in or out of levels 1, 2 or 3.

The following is a description of the valuation methodologies used for investments measured at fair value and their classification in the valuation hierarchy:

**11. Fair Value Measurements (continued)**

Investments in *money market* and *common stocks* (Note 3) are valued at the net asset value of shares held by the School at year end, which generally is \$1 per each unit held. Such securities are classified within Level 1 of the valuation hierarchy.

Investments in *mutual funds* (Note 3) are valued at the net asset value of shares of funds selected by the participants of the 457(b) and 457(f) plans (Note 7) as reported at year end in the listing of the applicable major exchanges. Such securities are classified within Level 1 of the valuation hierarchy.

Investments in *certificates of deposit* and *corporate bonds* (Note 3 and 8) are valued by discounting the related cash flows based on current yields of similar instruments with comparable derivatives considering the creditworthiness of the issuer. Such securities are classified within Level 2 of the valuation hierarchy.

Investments in *U.S. Government securities* (Note 3) are valued using the latest bid process and significant inputs, including benchmarking yields, broker-dealer quotes, issuer spreads, and measures of volatility provided by independent pricing services, and classified within level 2 of the valuation hierarchy.

The following summarizes information about the fair value measurements used as June 30, 2018:
